In Defense 101, a concise primer for understanding the United States' \$700+ billion defense budget and rapidly changing military technologies, Michael O'Hanlon provides a deeply informed yet accessible analysis of American military power. After an introduction in which O'Hanlon surveys today's international security environment, provides a brief sketch of the history of the US military, its

Online Library 2017 2018 Washington Amp Real Estate Exam Prep Questions And Answers Study Guide To Ping The Salesperson Real Estate License Exam Effortlessly

command structure, the organization of its three million personnel, and a review of its domestic basing and global reach, Defense 101 provides in-depth coverage of four critical areas in military affairs:

- Defense Budgeting and Resource Allocation: detailed budget and cost breakdowns, wartime spending allocations, economics of overseas basing, military readiness, and defense budgeting versus US grand strategy
- Gaming and Modeling Combat: wargaming, micro modeling, nuclear exchange calculations, China scenarios, and assessments of counterinsurgency missions
- Technological Change and Military Innovation: use of computers, communications, and robotics, cutting-edge developments in projectiles and propulsion systems
- The Science of War, military uses of space, missile defense, and nuclear weapons, testing, and proliferation

For policy makers and experts, military professionals, students, and citizens alike, Defense 101 helps make sense of the US Department of Defense, the basics of war and the future of armed conflict, and the most important characteristics of the American military.

Packed with current, global examples, Dooley/Patten's WHY POLITICS MATTERS: AN INTRODUCTION TO POLITICAL SCIENCE, 3rd edition, explains why politics is important to you -- and how you can get involved. It gives you the building blocks to understand political science and provides a big picture of the field as it explores political theory, comparative politics, the U.S. government and international relations. Thoroughly up to date, it covers the rise of populism, nationalism, Brexit, the Trump presidency, U.S. relations with North Korea and China, the pink wave in the 2018 Congressional midterms, the impact of climate change on international relations and more. In addition, exercises throughout prompt you to think critically about chapter concepts and put what you learn into practice. Violence: The Enduring Problem offers an interdisciplinary and reader-friendly exploration of the patterns and correlations of individual and collective violent acts using the most contemporary research, theories, and cases. Responding to the fear of pervasive violence in the world, authors Alex Alvarez and Ronet Bachman address the various legislative, social, and political efforts to curb violent behavior. The authors expertly incorporate a wide range of current cases to help readers interpret the nature and dynamics of a variety of different, yet connected, forms of violence. The Fourth Edition represents a significant step forward in presenting a more complete and contemporary analysis of violence. Included in this edition is a new chapter on hate crime, a new chapter devoted to multicide, and updated discussions on current topical issues, including the #MeToo movement and epigenetics.

America's worst ideas and people are rising to the top, thanks to a rancid culture that has turned every

Online Library 2017 2018 Washington Amp Real Estate Exam Prep Questions And Answers Study Guide To Ping The Salesperson Real Estate License Exam Effortlessly

part of our lives into a fight between so-called “privilege” and entitled brats claiming “victim” status. The country is under siege and America’s most ferocious enemy is already here: our privileged victims. On university campuses, in the news media, and in Hollywood, race, gender, and sexuality determine who should advance and who should be taken down a peg. Driven by “social justice” and governed by “intersectionality,” out-of-control college students, school administrators, journalists, and titans of the entertainment industry divide and rank us on an infinite scale of grievance—the more of them, the better. And God have mercy on any individual deemed to benefit from “privilege.” Privileged Victims zealously exposes the lies and myths behind: • The #MeToo movement that redefined sexual assault and rape to include simple regret, ruining the lives and careers of countless men • Hoax hate crimes, a key feature of the privileged victim class • The debate over our jungle-like immigration system, dumbed down by a scheming national news media to ugly charges of racism and xenophobia • Hollywood, which no longer aims to produce high-quality entertainment, but to virtue signal and promote "social justice" And so much more. In gripping detail, Eddie Scarry uncovers the perversion behind social justice and its identity-first dogma that’s replacing America’s meritocracy, tracing its origins in academia and shining a light on the havoc it has wrought over the course of three decades. Bewildered citizens mistakenly believe that it’s a matter of political correctness gone too far or the ailing symptoms of a country that has grown too sensitive. The truth is much worse: it's a deliberate, malignant reorganization of American life and the replacement of merit with mediocrity is the ultimate destination. “How did everyone in America get so unhappy all of a sudden? In part, because it pays. Eddie Scarry lays out the scam in this infuriating and fascinating book. It’ll make you never want to complain again, just for the sake of being countercultural.” —Tucker Carlson, Host of “Tucker Carlson Tonight” on Fox News and Author of Ship of Fools "What I love about Eddie is his courage. He knows the outrage mob is constantly coming and he doesn't care. Some of us call that being a First Amendment advocate. Count me as a fan and a reader."—Megyn Kelly

Presents a guide to preparing for the real estate licensing exam designed specifically for Washington, featuring practice questions with answers and explanations.

This edited volume bridges the "analytical divide" between studies of transatlantic relations, democratic peace theory, and foreign policy analysis, and improves our theoretical understanding of the logic of crises prevention and resolution. The recent rise of populism and polarization in both the U.S.A and Europe adds to a host of foreign policy crises that have emerged in transatlantic relations over the last two decades. Through examining how democracies can manage to sustain and maintain mechanisms of crisis resilience that are embedded in the democratic peace, and particularly

Online Library 2017 2018 Washington Amp Real Estate Exam Prep Questions And Answers Study Guide To Ping The Salesperson Real Estate License Exam Effortlessly

transatlantic relations, this book helps enhance the understanding of inter-democratic crisis resolution across issue areas. In doing so, it addresses some of the most important and prevalent crises of our time, such as anti-terrorism intervention in Afghanistan; Iran's nuclear program; burden-sharing within North Atlantic Treaty Organization NATO; key aspects of the international order, such as binding norms for cyber security and the integration of China into the Western-led international economic order; as well as domestic order shifts, such as the British vote to leave the European Union (EU) and the impact of the Trump administration populist foreign policy on transatlantic crisis resolution. This book will be of key interest to students and scholars of International Relations, Transatlantic Studies, Foreign Policy Analysis, and Comparative Politics.

Resisting Rape Culture through Pop Culture: Sex After #MeToo provides audiences with constructive models of affirmative consent, tender masculinity, and pleasure in popular culture that work to challenge toxic dominant and hegemonic constructions. While numerous scholars have illustrated the many ways mediated culture shape social understandings of sexual violence, this book analyzes texts that might serve to resist rape culture. This project locates how these texts manufacture cinematic or televisual narratives and in turn work to create new realities that encourage cultural and social change. Kelly Wilz analyzes the ways in which we, as a culture, tend to understand sex through visual media and dominant cultural myths, while highlighting productive texts which might serve as a possible corrective to the ways in which sex is ritualized by rules that legitimize violence. Through the lens of productive criticism, Wilz examines how language and dominant ideologies around rape culture and rape myths reinforce systemic violence, and how visual texts might work to reimagine how we might disrupt those ideologies and create new ways to engage in conversations around intimacy and violence. By centering the voices within the #MeToo movement, who actively work to de-normalize sexual assault and abuse, these models provide a useful counter to the deluge of dehumanizing narratives about survivors and sexualized violence. Scholars of pop culture, women's studies, media studies, and social justice will find this book particularly useful.

This timely handbook provides in-depth overviews of the myriad and multi-faceted issues surrounding sexual assault and its pervasiveness in today's culture. Drawing from multiple viewpoints and experts, the book is divided into seven comprehensive sections, covering such topics as risk factors, varying theoretical frameworks, prevention and intervention, and special populations. Within these sections the authors provide historical background as well as the latest research, and offer treatment outcomes and potentials. Selected topics covered in this book include: Feminist theories of sexual assault Social and economic factors surrounding sexual violence Mental, physiological, physical, and functional health

Online Library 2017 2018 Washington Amp Real Estate Exam Prep Questions And Answers Study Guide To Ping The Salesperson Real Estate License Exam Effortlessly

concerns of victims, including PTSD Major categories of sexual offenders Treatment of sexual assault survivors in the LGBTQ+ community Procedural processes related to sexual assault investigation and adjudication within the criminal justice system The Handbook of Sexual Assault and Sexual Assault Prevention is a vital book that will appeal to a broad spectrum of students, researchers, practitioners, and clinicians in the fields of psychology, psychiatry, community mental health, and sociology.

In *Birthing Black Mothers* Black feminist theorist Jennifer C. Nash examines how the figure of the “Black mother” has become a powerful political category. “Mothering while Black” has become synonymous with crisis as well as a site of cultural interest, empathy, fascination, and support. Cast as suffering and traumatized by their proximity to Black death—especially through medical racism and state-sanctioned police violence—Black mothers are often rendered as one-dimensional symbols of tragic heroism. In contrast, Nash examines Black mothers’ self-representations and public performances of motherhood—including Black doulas and breastfeeding advocates alongside celebrities such as Beyoncé, Serena Williams, and Michelle Obama—that are not rooted in loss. Through cultural critique and in-depth interviews, Nash acknowledges the complexities of Black motherhood outside its use as political currency. Throughout, Nash imagines a Black feminist project that refuses the lure of locating the precarity of Black life in women and instead invites readers to theorize, organize, and dream into being new modes of Black motherhood.

A fascinating examination of how restricting speech has continuously shaped our culture, and how censorship is used as a tool to prop up authorities and maintain class and gender disparities Through compelling narrative, historian Eric Berkowitz reveals how drastically censorship has shaped our modern society. More than just a history of censorship, *Dangerous Ideas* illuminates the power of restricting speech; how it has defined states, ideas, and culture; and (despite how each of us would like to believe otherwise) how it is something we all participate in. This engaging cultural history of censorship and thought suppression throughout the ages takes readers from the first Chinese emperor's wholesale elimination of books, to Henry VIII's decree of death for anyone who "imagined" his demise, and on to the attack on Charlie Hebdo and the volatile politics surrounding censorship of social media. Highlighting the base impulses driving many famous acts of suppression, Berkowitz demonstrates the fragility of power and how every individual can act as both the suppressor and the suppressed.
