The Westons were among the most well-known abolitionists in antebellum Massachusetts, and each of the Weston sisters played an integral role in the family's work. The eldest, Maria Weston Chapman, became one of the antislavery movement's most influential members. In an extensive

and original look at the connections among women, domesticity, and progressive political movements, Lee V. Chambers argues that it was the familial cooperation and support between sisters, dubbed "kin-work," that allowed women like the Westons to participate in the political process, marking a major change in women's roles from the domestic to the public sphere. The Weston sisters and abolitionist families like them supported each other in meeting the challenges of sickness, pregnancy, child care, and the myriad household responsibilities that made it difficult for women to engage in and sustain political activities. By repositioning the household and family to a more significant place in the history of American politics, Chambers examines connections between the

female critique of slavery and patriarchy, ultimately arguing that it was family ties that drew women into the activism of public life and kept them there.

In the prehistoric Copper Age, long before cities, writing, or the invention of the wheel, Old Europe was among the most culturally rich regions in the world. Its inhabitants lived in prosperous agricultural towns. The ubiquitous goddess figurines found in their houses and shrines have triggered intense debates about women's roles. The Lost World of Old Europe is the accompanying catalog for an exhibition at New York University's Institute for the Study of the Ancient World. This superb volume features essays by leading archaeologists as well as breathtaking

color photographs cataloguing the objects, some illustrated here for the first time. The heart of Old Europe was in the lower Danube valley, in contemporary Bulgaria and Romania. Old European coppersmiths were the most advanced metal artisans in the world. Their intense interest in acquiring copper, Aegean shells, and other rare valuables gave rise to far-reaching trading networks. In their graves, the bodies of Old European chieftains were adorned with pounds of gold and copper ornaments. Their funerals were without parallel in the Near East or Egypt. The exhibition represents the first time these rare objects have appeared in the United States. An unparalleled introduction to Old Europe's cultural, technological, and artistic legacy, *The Lost World of Old Europe* includes essays by

In a major revision of accepted wisdom, this book, originally published by UNC Press in 1991, demonstrates that American social Christianity played an important role in racial reform during the period between Emancipation and the civil rights movement. As organizations created by the heirs of antislavery sentiment foundered in the mid-1890s, Ralph Luker argues, a new generation of black and white reformers--many of them representatives of American

social Christianity--explored a variety of solutions to the problem of racial conflict. Some of them helped to organize the Federal Council of Churches in 1909, while others returned to abolitionist and home missionary strategies in organizing the NAACP in 1910 and the National Urban League in 1911. A half century later, such organizations formed the institutional core of America's civil rights movement. Luker also shows that the black prophets of social Christianity who espoused theological personalism created an influential tradition that eventually produced Martin Luther King Jr.

foundation of Winston Churchill's premiership. It revived the flagging hopes of the German people and fanned the flames of Arab unrest. Furthering Rommel's ascendancy and souring relations within the British Commonwealth, it marked a turning point in Anglo-American relations and the fight against the Third Reich. Utilising a wealth of primary and secondary sources Tobruk 1942 examines why the fortress fell to Rommel's Axis forces in just 24 hours when it held out against repeated attacks the previous year. Comparing the 1941 and 1942 battles, this book presents a new perspective on Tobruk – the isolated Libyan fortress, and symbol of Allied freedom, which for a period in the war captured the world's attention.

Do you know a child affected by the break-up of their parents' marriage? It could be your own child or grandchild, your niece, nephew, or even one of your pupils. Divorce is common but for each child involved, it is a bewildering and hurtful experience, similar to bereavement, yet without the same level of support. This practical guide is written by a mother who saw how divorce impacted her own four children. It shows how family break-up affects children differently at various ages, and carries on doing so in new ways at later stages of life and as parents move on into new relationships, maybe with new siblings. The Essential Guide to Children and Separation includes interviews with those who have come through divorce, and a lot of input from children currently affected by parental

separation. This helpful and caring book shows that divorce may mean the end of a marriage, but does not need to be the end of the world for the children involved.
