The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights

of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going

often recognized in the West as Russian literature's leading dissident. How do we account for this paradox? In the first collection of essays to explore the Russian author's life and works in English, leading experts present recent multidisciplinary research on Grossman's experiences, his place in the history of Russian literature, key themes in his writing, and the wider implications of his life and work in the realms of philosophy and politics. Born into a Jewish family in Berdychiv, Grossman was initially a supporter of the ideals of the Russian Revolution and the new Soviet state.

During the Second World War, he worked as a correspondent for the Red Army newspaper and was the first journalist to write about the Nazi extermination camps. As a witness to the daily violence of the Soviet regime, Grossman became more and more aware of the nature and forms of totalitarian coercion, which gradually alienated him from the Soviet regime and earned him a reputation for dissidence. A survey of the remarkable accomplishments and legacy left by this controversial and contradictory figure, Vasily Grossman reveals a writer's power to express freedom even under totalitarianism.

Hegel's philosophy of society, politics and history is exposed to ethical debate on human rights, the justification of legal punishment, criteria of moral responsibility, and authority of individual conscience.

'Political Science' offers a thorough introduction to the basic concepts and theories of political science. With a critical look at the major theories, it exposes students to many ways of thinking, and challenges them to think critically while emphasizing both US and comparative politics.

This work positions Arendt as a political writer attempting to find a way in which humanity, poised between the Holocaust and the atom bomb, might reclaim its position as the creators of a world fit for human habitation.

What are the causes of war? Wars are generally begun by a revisionist state seeking to take territory. The psychological root of revisionism is the yearning for glory, honor and power. Human nature is the primary cause of war, but political regimes

can temper or intensify these passions. This book examines the effects of six types of regime on foreign policy: monarchy, republic and sultanistic, charismatic, and military and totalitarian dictatorship. Dictatorships encourage and unleash human ambition, and are thus the governments most likely to begin ill-considered wars. Classical realism, modified to incorporate the impact of regimes and beliefs, provides a more convincing explanation of war than neo-realism.
