Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

(High School) Hailed as a stellar educational resource for nearly a century, Magruder's American Government is updated annually to meet the changing needs of today's high school students and teachers. The program's engaging narrative is enhanced with numerous primary sources, political cartoons, charts, graphs, and photos, making the structure and principals of government accessible and motivating to students of all abilities.

This high-impact program offers students a strong introduction to government, citizenship, and the American economic and legal systems. An accessible narrative and compelling design work hand-in-hand with interactive technology, study guides, and activity-based resources to motivate students to actively participate in government. Expanded economics coverage, research-based reading instruction, and new chapter assessment tools ensure content mastery for all students. Custom book written especially for Virginia Test preparation and AYP monitoring resources to get students ready for the SOLs Focus on 21st Century Skills to help your students prepare for success today and tomorrow Activities and resources, like the Citizenship Activity Pack, designed to help students become engaged 21st Century citizens

Civics: Government and Economics in Action provides an engaging, current, and relevant look at the foundations of American government, citizenship, and the American economic and legal systems. The program combines an accessible narrative and engaging visual design with a wide variety of instructional tools -- from workbooks to interactive technology -- to motivate students to participate, make decisions, and take action both in and out of the classroom.
