Americans have long recognized that investments in public education contribute to the common good, enhancing national prosperity and supporting stable families, neighborhoods, and communities. prepare them for adult roles as citizens, employees, managers, parents, volunteers, and entrepreneurs. To achieve their full potential as adults, young people need to develop a range of skills and knowledge that facilitate mastery and application of English, mathematics, and other school subjects. At the same time, business and political leaders are increasingly asking schools to develop skills such as problem solving, critical thinking, communication, collaboration, and self-management - often referred to as "21st century skills." This report also describes how these skills relate to each other and to more traditional academic skills and content in the key disciplines of reading, mathematics, and science. "How the Other Half Lives" by Jacob Riis sheds fascinating light on how our immigrants in the 1800's lived in New York

City. A must-read for Americans whose family has been in the U.S. for only a few generations, this book tells what it was really like in the slums. Whether Irish, Italian, Jewish, Chinese or Polish, German, Russian, hordes of refugees ended up in New York on the promise of a better life. Entrepreneurs lured poor people from Eastern Europe and contracted out their labor in sweat shops in the US. The laborers lived in tenements, which were dark, unventilated cages in blocks of buildings that rented for a surprising high rent to people who died by the thousands in the unsanitary conditions. The conditions described by Jacob Riis in this classic are heart-rending, especially the part about foundling babies (abandoned newborns). A cradle was put outside a Catholic Church and instead of a baby each night, racks of

babies appeared. The Church had to establish foundling hospitals run by nuns, who persuaded the unwed or impoverished mothers to nurse the baby they gave up, plus another baby. The child mortality rate, especially in the "back tenements" or buildings built on to the back of others (dark and airless) was incredible. Riis also provides interesting information about the gangs of New York in "How the Other Half Lived."
