September 6, 1977, Steve Biko died six days later. Donald Woods, Biko's close friend and a leading white South African newspaper editor, exposed the murder helping to ignite the black revolution.

Filled with fresh interpretations and information, puncturing old myths and challenging new ones, *Battle Cry of Freedom* will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative fully integrates the political, social, and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War--the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry--and then moves into a masterful chronicle of the war itself--the battles, the strategic maneuvering on both sides, the politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war--slavery--and adopt a policy of emancipation as a second war aim. This "new birth of freedom," as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing "second American Revolution" we call the Civil War, a war that transformed a nation and expanded our heritage of liberty.

The author describes the threats and emotional abuse she endured from white student and adults along with her fears of endangering her family as she committed to being one of the first African American students to integrate Central High School in Little Rock, Arkansas in 1957.

Photographs from Richard Attenborough's film depict the experiences of Steve Biko, a Black activist murdered by the South African police, and Donald Woods, the white publisher who had to flee the country in order to tell Biko's story.

As a leader in teaching, training, and transforming boys in Detroit, Jason Wilson shares his own story of discovering what it means to "be a man" in this life-changing memoir. His grandfather's lynching in the deep South, the murders of his two older brothers, and his verbally harsh and absent father all worked together to form Jason Wilson's childhood. But it was his decision to acknowledge his emotions and yield to God's call on his life that made Wilson the man and leader he is today. As the founder of one of the country's most esteemed youth organizations, Wilson has decades of experience in strengthening the physical, mental, and emotional spirit of boys and men. In *Cry Like a Man*, Wilson explains the dangers men face in our culture's definition of "masculinity" and gives readers hope that healing is possible. As Wilson writes, "My passion is to help boys and men find strength to become courageously transparent about their own brokenness as I shed light on the symptoms and causes of childhood trauma and 'father wounds.' I long to see men free themselves from emotional incarceration—to see their minds renewed, souls weaned, and relationships restored."

Young Cassie Logan endures humiliation and witnesses the racism of the KKK as they embark on a cross-burning rampage, before she fully understands the importance her family attributes to having land of their own.
