Series of four algebra workbooks This set of four problem-solving books follows the traditional one-year algebra course, covering the main algebraic principles. Book A begins the year with exercises in simplifying numerical expressions and moves on to one-variable equations. Book B follows with operations in polynomials, solving polynomial equations, and working with rational expressions. Book C involves proportions, graphing linear equations, plus inequalities and absolute value equations. Book D completes the course with roots and radicals, quadratic equations, and analysis of quadratic equations. Interest Level: 8-12

Fun-filled math problems that put the emphasis on problem-solving strategies and reasoning The Algebra Teacher's Activity-a-Day offers activities for test prep, warm-ups, down time, homework, or just for fun. These unique activities are correlated with national math education standards and emphasize problem-solving strategies and logical reasoning skills. In many of the activities, students are encouraged to communicate their different approaches to other students in the class. Filled with dozens of quick and fun algebra activities that can be used inside and outside the classroom Designed to help students practice problem-solving and algebra skills The activities address a wide range of topics, skills, and ability levels, so teachers can choose whichever best suit the students' needs.

A research based, NSF funded, K5 mathematics program integrating math, science and language arts. Includes a Spanish translation of instructional units.

Adult educators working in workplace literacy & workforce preparation programs need to be aware of the many efforts to define standards for the knowledge, skills, & abilities needed for successful performance in the workplace. This report describes the various efforts related to skill standards & other policy initiatives for those who may not be directly involved in these ongoing efforts. Includes skill descriptions as the framework for workplace literacy skill standards. Contents: background to the occupational skill standards efforts; occupational skill standards; framework for skill standards; discussion & conclusions.
