Describes the Triassic, Jurassic, and Cretaceous periods, when dinosaurs roamed the earth; offers profiles of over fifty types of dinosaurs; and features maps showing where their remains have been found.

Marries the very latest in paleontology with an easily accessible atlas format to illuminate the mysteries of dinosaur origins, clues to what they looked like and where they lived, and what made them extinct.

It's time to explore lost prehistoric lands and the huge variety of dinosaurs that roamed them with Lonely Planet Kids' Dinosaur Atlas. Kids can unfold maps and lift the flaps to reveal amazing illustrations and facts about how dinosaurs lived and where they were discovered. They'll also learn about famous paleontologists and measure themselves against life-size bones, teeth and claws. From giant sauropods and horned dinosaurs, to duckbills and ferocious theropods, kids will discover how the dinosaurs evolved, what they looked like and how they hunted. Plus, we've included the latest finds and theories. Created in consultation with Dr David Button, a dinosaur expert at the North Carolina Museum of Natural Sciences, and featuring iconic illustrations by James Gilleard. About Lonely Planet Kids: Come explore! Let's start an adventure. Lonely Planet Kids excites and educates children about the amazing world around them. Combining astonishing facts, quirky humour and eye-catching imagery, we ignite their curiosity and encourage them to discover more about our planet. Every book draws on our huge team of global experts to help share our continual fascination with what makes the world such a diverse and magnificent place - inspiring children at home and in school.

Follow the Tyrannosaurus rex on an exciting journey around the globe. Eight maps and twelve stunning feature spreads invite readers to explore the prehistoric world. Each map is illustrated with colorful pictorial icons showing the different dinosaurs and prehistoric creatures that lived on each continent. Feature spreads provide additional information about specific dinosaur species and their unique environments. A simple numbered and lettered grid makes this atlas a perfect introduction to basic map-reading skills, as well as a memorable dinosaur reference.

Journey back in time and find out where dinosaurs roamed. This unique children's atlas explores each continent, revealing fossil sites and stories on every map. This atlas is packed with maps of early Earth and more than 40 profiles of dinosaurs and other prehistoric animals. Stare down a T Rex in North America. Watch out for Velociraptors' slashing claws in the Gobi Desert. Trek across the Siberian tundra and discover a woolly mammoth. This stunning book uses breathtaking computer-generated imagery to make every animal come to life. Using specially commissioned maps, this dinosaur atlas also shows you what the world looked like millions of years ago. A modern 3D globe next to each map helps you understand the arrangement of the continents over time and why we find fossils where we do. You can see what palaeontologists have dug up in each continent and learn how they put together a picture of the past from a puzzle of ancient clues. Dinosaur Atlas reveals the prehistoric world as never before, and is an essential addition to the library of every young dinosaur expert.

A fully updated and expanded new edition of the acclaimed, bestselling dinosaur field guide The bestselling Princeton Field Guide to Dinosaurs remains the must-have book for anyone who loves dinosaurs, from amateur enthusiasts to professional paleontologists. Now extensively revised and expanded, this dazzlingly illustrated large-format edition features some 100 new dinosaur species and 200 new and updated illustrations, bringing readers up to the minute on the latest discoveries and research that are radically transforming what we know about dinosaurs and their world. Written and illustrated by acclaimed dinosaur expert Gregory Paul, this stunningly beautiful book includes detailed species accounts of all the major dinosaur groups as well as nearly 700 color and black-and-white images—skeletal drawings, "life" studies, scenic views, and other illustrations that depict the full range of dinosaurs, from small feathered creatures to whale-sized supersauropods. Paul's extensively revised introduction delves into dinosaur history and biology, the extinction of nonavian dinosaurs, the origin of birds, and the history of dinosaur paleontology, as well as giving a taste of what it might be like to travel back in time to the era when dinosaurs roamed the earth. Now extensively revised and expanded Covers nearly 750 dinosaur species, including scores of newly discovered ones Provides startling new perspectives on the famed Brontosaurus and Tyrannosaurus Features nearly 700 color and black-and-white drawings and figures, including life studies, scenic views, and skull and muscle drawings Includes color paleo-distribution maps and a color time line Describes anatomy, physiology, locomotion, reproduction, and growth of dinosaurs, as well as the origin of birds and the extinction of nonavian dinosaurs

Beautifully illustrated by children's artist Anthony Lewis, with lively age-appropriate text by zoologist and environmentalist David Burnie, the First Dinosaur Picture Atlas explains where dinosaurs came from and how they lived in different habitats across the world. An adorable dinosaur-shaped bookmark takes readers on a journey around the globe, helping them identify different species of dinosaur in an absorbing look-and-find game. In addition to the colourful maps showing the world's continents, superb full-page illustrations take readers deeper into the different habitats of the prehistoric world to show how and where dinosaurs and other prehistoric creatures lived. This atlas will delight young children and is the perfect first dinosaur reference book for both home and school.

The perfect book for young dinosaur lovers, this interactive atlas is full of colourful maps that reveal where dinosaurs lived during different periods of prehistory, plus vibrant scenes that describe their habitat. Sprinkled with stunning dinosaur icons and stickers to decorate the maps and scenes, the colourfully illustrated atlas is crammed with interactive fun. With a dinosaur spotter's guide and quiz; a fold-out poster of dinosaur fossils; a card model of a dinosaur to build and play with; plus over 150 cool stickers, this is a fun and engaging introduction to the world of dinosaurs!

From the team behind the best-selling Atlas of Adventures comes this prehistoric journey of discovery. You'll get to embark on over thirty dinosaur adventures that will take you all around the world! Travel back in time to lock horns with a triceratops, stalk prey with a T-Rex, and learn to fly with a baby Pteranodon. With hundreds of things to spot and facts to learn, this is the biggest Atlas adventure yet!
