In Sekret Machines: Gods, the cultural, historical, and religious aspects of mankind's encounters with UFOs were explained by Open Mind's 2017 UFO Researcher of the Year and To The Stars Academy of Arts and Science founder Tom DeLonge with

For those who know... that something is going on... The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something impossible lighting up the night sky. What those objects were, where they came from, and who—or what—might be inside them is the subject of fierce debate and equally fierce mockery, so that most who glimpsed them came to wish they hadn't. Most, but not everyone. Among those who know what they've seen, and—like the toll of a bell that can't be unring—are forever changed by it, are a pilot, an heiress, a journalist, and a prisoner of war. From the waning days of the 20th century's final great war to the fraught fields of Afghanistan to the otherworldly secrets hidden amid Nevada's dusty neverlands—the truth that is out there will propel each of them into a labyrinth of otherworldly technology and the competing aims of those who might seek to prevent—or harness—these beings of unfathomable power. Because, as it turns out, we are not the only ones who can invent and build...and destroy. Featuring actual events and other truths drawn from sources within the military and intelligence community, Tom DeLonge and A.J. Hartley offer a tale at once terrifying, fantastical, and perhaps all too real. Though it is, of course, a work of... fiction?

Tom DeLonge—award-winning creator and accomplished researcher, who made history by releasing the first official military footage of a UFO that has been through the US government declassification review process—and New York Times bestselling author A.J. Hartley continue their thrilling Sekret Machines saga of archeological adventure, government conspiracy, historical mystery, and unimaginable technology with Sekret Machines Book 2: A Fire Within. They have witnessed what is beyond the bounds of possibility. Lights sailing across Nevada's desert night sky in fluid and rapid motions that are impossible for even the most technologically advanced aircraft. They have encountered those responsible for the unexplained. Men in black suits, white lab coats, and military uniforms who do not want their secrets exposed. Brought together by fate—or phenomena—heiress Jennifer Quinn, journalist Timika Mars, pilot Alan Young, and ex-Marine Barry Regis are bonded by the incidents they've witnessed, hunted by agents of a wealthy corporate cabal desperate for unimaginable power, and possessed of extraordinary abilities they do not understand, much less control. Now, they're on a mission of their own. As Alan and Barry test the limits of their strange gifts inside the military complex known as Dreamland, Jennifer and Timika begin a quest to locate an ancient tablet that may hold the answers to humanity's greatest question. Are we alone in the universe? Based on the accounts of credible UAP observers drawn from expert sources within the scientific, military and intelligence communities, Sekret Machines: A Fire Within is the second fiction book within a multimedia project that has become part of the most ambitious investigation of the phenomenon in history.

An exceptional examination that “plays the role of an intellectual Indiana Jones, expertly guiding readers through crumbling, vine-laden Mayan temples; the stunning iconography of ancient Egypt and the esoteric creation myths of antediluvian India, Africa and China.” Written by Open Mind's 2017 UFO Researcher of the Year and critically acclaimed producer Tom DeLonge, with renowned researcher Peter Levenda. Sekret Machines: GODS will take you on an eye-opening journey that transcends speculation and is based on unprecedented access to officials at the highest levels of government, military and industrial agencies who have provided insights and assistance never before experienced by any researchers in this controversial field. GODS takes us beyond speculation to certain knowledge of what exactly lies at the heart of the most important Phenomenon ever to confront human understanding. Now in trade paperback, the first volume in Gods, Man & War, GODS introduces the reader to some of the critical issues that are foundational to an intelligent and enlightened grasp of the revelations that will follow in the next two volumes. There is another Force in the universe of our Reality, another context for comprehending what has been going on for millennia and especially in the last seventy years. Sekret Machines is the result of input from scientists, engineers, intelligence officers, and military officials -- a group we call the Advisors -- and transcends the speculation of journalists, historians and others whose conclusions are often either misinformed or only tease around the edges of the Sekret Machines. The reader will not discover wild theories or unfounded claims, but instead will confront a solid -- if often unsettling -- reality, one that demands the collaboration of all of us in every field of human endeavor if we are to understand it and manage its effects. If nothing else, readers will come to the conclusion that the Phenomenon is not what they think it is. It is, in fact, much more serious and potentially much more threatening than they

can imagine. Sekret Machines: GODS is volume one of the companion investigation series to the bestselling fiction thriller Sekret Machines: Chasing Shadows by DeLonge and NYTimes bestselling author AJ Hartley. The whole is truly greater than the sum of its parts. Read together, the thriller series and the investigation series show what cannot be revealed with one approach alone.

From the imagination of blink-182's award-winning author Tom DeLonge, the Strange Times crew first debuted in the graphic novel Strange Times: The Curse of Superstition Mountain. Now teamed-up with Geoff Herbach, also an award-winning author of the Felton Reinstein Trilogy, DeLonge tells the hilarious and haunting adventure that originally forced five outcast jerks to band together or give up the ghost. Charlie Wilkins has it all. Pitcher on the baseball team, point guard on the basketball team, good jock friends and girls who just love him. Then his U.S. Air Force dad goes M.I.A. during a secret mission and Charlie falls into darkness. He quits basketball, pushes away his old friends who all seem so stupid. He stops talking. Nobody knows what he's going through, because the government has forbidden the family from disclosing Dad's predicament. Charlie turns into a loner, until an Earth Science assignment forces him to join a new, messed-up team. Wiz has a brain for science, a love for steampunk, and a total disgust for most human beings. Heavy-set, picked-on Riley has a home life Harry Potter wouldn't trade for. Mouse and Mattheson are skateboard slackers with a keen interest in tacos and in building a model volcano that looks like a butt. With zero chemistry between them, Charlie can't see how he's going to pass this class. Will he be stuck, suffering, in eighth grade forever? The earth shifts. It seems impossible. A ghost girl reaches out to Charlie through the terrified skater boys. She's being stalked by a vengeful spirit that shares a past with Charlie's family. It soon becomes clear that the spirit is coming for him. He has to save the ghost girl and save himself. His only hope? The nerd Wiz, the loser Riley, the skaters Mouse and Mattheson who want to hook-up with the girl. But, seriously, she's a ghost. Strange Times indeed...

The stunning continuation of an intensive study of UFO phenomena in which the hard science, technology, and the human mind are explored as they relate to our world and the encounters that people are still having today... In Sekret Machines: Gods, the cultural, historical, and religious aspects of mankind's encounters with UFO's was explained by Open Mind's 2017 UFO Researcher of the Year and To The Stars Academy of Arts and Science founder Tom DeLonge with renowned research author Peter Levenda. Here, they continue their revelatory work in a thoroughly-researched expose that seeks to solve the scientific mysteries of the the unidentified aerial phenomenon, the UFO experiencers whose lives were changed forever, and what it means for all mankind. To this end, they have divided their study into three fields of inquiry: Genetics and the ET Hypothesis: Was life on Earth actually initiated by alien life forms deliberately? Many cultures worldwide hold clues in their mythos that points to this. But for what ultimate purpose would this have? And what does that make humanity? Consciousness: If the building blocks of life were truly transplanted by a higher intelligence with intent, was our human concept of consciousness included in that DNA? And as we evolve, are we headed toward eventual immortality as sentient beings? Human-Machine Symbiosis: In this section, the concept of technological advancement is explored—focusing on our own astounding achievements in recent years in the fields of Artificial Intelligence and robotics—which leads to a much deeper question: If we have come so far so fast, what unfathomable level of technology must the phenomenon already possess? In Sekret Machines: Man, DeLonge and Levenda go beyond the lies fed to the public for decades—using unsealed confidential records, expert analysis, and eyewitness testimony from scientists, civilians, military personnel, researchers, and UFO experiencers to reveal the wide-ranging influence that UFO forces have had upon our past, continue to exert on our present, and may hold for our future.

Multi-platinum recording artist and Blink-182 founder Tom DeLonge once again teams up with New York Times bestselling author Suzanne Young to continue the award-winning, critically-acclaimed transmedia project—Poet Anderson—inspired by a Stanford University study on how your dreams can effect your reality. In the Waking World, Jonas Anderson works as a doorman for the Eden Hotel, dividing his free time between seeing his girlfriend, Samantha Birnham-Wood, and visiting his comatose brother Alan. In the Dream World, he is Poet Anderson, a Dream Walker, a guardian of the Dreamscape charged with protecting sleeping innocents from the nightmares that threaten both worlds. But Jonas remains tormented by his own nightmare—his failure to rescue Alan from the Dreamscape and free him from his coma. Together, Jonas and Alan fought side-by-side against the night terror entity known as REM. Even though they defeated the vicious monster, Alan continues to waste away in a hospital bed while Jonas' guilt eats away at his soul. REM may have lost a battle, but the war continues. His Night Stalkers roam the Dreamscape, hunting for Jonas and the other poets capable of traversing the waking and dreaming realms. And now, demonic shadow creatures are possessing the spirits of dreamers and using their bodies to enter the Waking World. Jonas can no longer avoid his destiny. To save reality from the maelstrom of nightmares, Poet Anderson will have to sacrifice the Dreamscape...

Could "UFOs" and "Aliens" simply be us, but from the future? This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants, using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past. Dr. Michael P. Masters, a professor of biological anthropology specializing in human evolutionary anatomy, archaeology, and biomedicine, explores how the persistence of long-term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc-shaped craft, which are likely the very devices that allow our future progeny to venture backward across the landscape of time. Moreover, these extraterrestrials are ubiquitously described as bipedal, large-brained, hairless, human-like beings, who communicate with us in our own languages, and who possess technology advanced beyond, but clearly built upon, our own. These accounts, coupled with a thorough understanding of the past and modern human condition, point to the continuation of established biological and cultural trends here on Earth, long into the distant human future.

Bob Lazar is the reason Area 51 became infamous in the 1980s and his recent appearance on Joe Rogan's podcast with 7 million listeners is credited with inspiring the Storm Area 51 phenomenon. In his DREAMLAND autobiography, Lazar reveals every detail of his highly controversial story about being an insider within the world's most legendary military research base. Bob Lazar was a brilliant young physicist that found himself employed at a top secret facility in the middle of the desert outside Las Vegas. Under the watchful eye of the government elite, he is tasked with understanding an exotic propulsion system being used by an advanced aerospace vehicle he is told came from outer space. The stressful work and long, odd hours start to wear on Bob and he becomes concerned for his safety. He tells his wife and a couple close friends about what he's doing in the desert, and his employers find out and are furious. When they station goons outside his house, Bob seeks help from wealthy UFOlogist, John Lear, who encourages Bob to take his story to award-winning investigative journalist George Knapp at KLAS-TV, a CBS affiliate. To prove he's telling the truth, Bob takes a group of people out into the desert to watch a test flight of the "flying saucer." On the way home, they are stopped by the police, who notify the base, and Bob loses his job. In a series of interviews with CBS TV, Bob Lazar then blows the lid off "Area 51," blows the whistle on the effort to conceal this craft from the American people, and blows up his career as a top physicist. Bob Lazar's reports have been the subject of intense controversy for decades. He has been interviewed numerous times and his story has been corroborated by other individuals he worked with and who were present when these events happened. But until now, Bob Lazar has never told his own story, in every detail in his own words, about those exciting days in the desert outside of Las Vegas and how the world came to learn about the experiments being conducted at Area 51.

More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. *American Cosmic* examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like *The X-Files*, which can influence memory, and the believability lent to that media by the search for planets that might support life. *American Cosmic* explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

An empty mind is a safe mind. Yulia's father always taught her to hide her thoughts and control her emotions to survive the harsh realities of Soviet Russia. But when she's captured by the KGB and forced to work as a psychic spy with a mission to undermine the U.S. space program, she's thrust into a world of suspicion, deceit, and horrifying power. Yulia quickly realizes she can trust no one--not her KGB superiors or the other operatives vying for her attention--and must rely on her own wits and skills to survive in this world where no SEKRET can stay hidden for long.
