- The way a theologian introduces theology says much about his own theological convictions. The numbers of available introductions are legion. We have chosen two, Erickson & McGrath, because they represent two opposite ends of the Evangelical perspective. Method and Prolegomena in Theology

Introduction to Christian Theology - Lecture Notes

When Martin Luther famously published his Ninety-five Theses in Wittenberg, he did not intend to create a new church or denomination, but set out to spur on the reform of the Catholic Church of his day. That his attempt at reformation in fact produced the Reformation cannot, however, be comprehended by the sheer force of his theological ideas.

Far from being solely an academic enterprise, the practice of theology can pique the interest of anyone who wonders about the meaning of life. Inviting readers on a journey of 'faith seeking understanding', this introduction to Christian theology - its basic concepts, confessional content, and history - emphasizes the relevance of the key convictions of Christian faith to the challenges of today's world. In the first part, this book introduces the project of Christian theology and sketches the critical context that confronts Christian thought and practice today. In a second part, it offers a survey of the key doctrinal themes of Christian theology - including revelation, the triune God, and the world as creation - identifying their biblical basis and the highlights of their historical development before giving a systematic evaluation of each theme. The third part provides an overview of Christian theology from the early church to the present.

This book helps beginning theological students grasp the basics of Christian theology. Consciously avoiding the perspective of one school of thought or confessional tradition, the authors provide the reader with a brief, broad overview of the questions and contents of theological study. Their accessible use of language,

clear organization, and careful explanation will prove of invaluable aid to those who are getting their theological feet wet for the first time. "In the words of its authors, this book offers an introduction 'to the fuller spectrum of Christian theology as it has developed through the centuries.' Few writers address the historical development of the classic doctrines and the contemporary resonance as adroitly as Gonzalez and Perez. The chapter on Jesus Christ, for example, presents concise summaries of the treatments of Christ's person leading up to Chalcedon, while suggesting a need for a multiplicity of images in understanding the work of Christ that liberates the whole person and restores all creation. Beginning students, as a result, are invited into a living theological conversation, where the contested claims of the past have continued relevance in a contemporary era beset by its undervaluing of the body and creation. Broadly ecumenical in tenor, with reference to theologians from nearly every century, the work should appeal to both a popular readership and introductory students in college and seminary. One disappointing aspect of the book is an absence of Latino/a, feminist, and liberation perspectives. For a work that argues for the contextuality of all theology, and from authors whose previous work has been monumental in Hispanic theological education, this lack is surprising."--David H. Jensen, Austin Presbyterian Theological Seminary, in

Religious Studies Review, Volume 29 Number 3, July 2003.

This innovative work is an introduction to Christian theology with a difference. Not only does it interpret, with clarity and energy, fundamental Christian beliefs but it also shows how and why these beliefs arose, promoting an understanding of theological reflection that encourages readers to think theologically themselves. From Irenaeus and Aquinas to Girard, from Augustine to Zizioulas and contemporary feminist thought, *Divine Teaching* explores the ways in which major thinkers in the Christian tradition have shaped theology through the wide variety of their encounters with God. It makes theological study adventurous and interactive, not necessarily requiring a faith commitment from all, but allowing readers a thoughtful involvement in the subject that takes seriously the Christian vision of God as the ultimate teacher of theology. *Divine Teaching: An Introduction to Christian Theology* is an imaginative and lively analysis of the Christian way of thinking, offering vivid and informing insight into the history and practice of Christian theology.

There has long been a need for a comprehensive but truly introductory single-authored textbook in theology. By introducing the reader to the biblical, doctrinal and

contemporary dimensions of Christianity with the help of illustrated examples from selected primary texts, the book provides an excellent grounding in theology for both students of the discipline and the general reader. The work explores key 'tools' for the scientific study of theology, endeavouring both to affirm the rationale behind Christian thinking, and also to familiarize the reader with significant contrary positions. The solid foundations in biblical theology and hermeneutics given in the book will enable students to read Judeo-Christian scripture intelligently. Key testimonies regarding Jesus Christ are scrutinized and the nature of the New Testament discussed. As well as the emergence of doctrinal orthodoxy and the later disagreements which have shaped contemporary Christianity, the reader will become familiar with the dimensions of current Christian thinking in its dialogue with post-modernity.

Students often find introductions to systematic theology too daunting or boring to wade through. Here author and teacher Bradley Hanson offers an attractive, accessible alternative for undergraduates. Hanson draws on 16 years of successful teaching to create exciting and pertinent presentations of major topics, illuminate options on key issues, and nudge students to formulate a personal stance.

An accessible introduction to Christian philosophical theology Philosophical or analytic theology seeks to employ philosophical tools while studying topics in Christian theology and examining the logical consistency or intelligibility of some of the key doctrines of the Christian faith. In this accessible primer, *An Introduction to Christian Philosophical Theology*, authors Stephen T. Davis and Eric T. Yang first explain the scope, relevance, and value of philosophical theology and then applies its conceptual tools to examine each of the core Christian doctrines: Revelation and Scripture The Trinity The Incarnation Redemption and the atonement, Resurrection and life after death The final chapter briefly addresses some additional theological issues including petitionary prayer, eschatology, and original sin. Designed for beginning students and non-specialists this guide provides the ideal entry point for not only understanding what philosophical theology is but also for how it can provide valuable insights for how we think about the core doctrines of the Christian faith.

Alister McGrath's internationally-acclaimed *Christian Theology: An Introduction* is one of the most widely used textbooks in Christian theology. Fully revised and featuring lots of new material, this fourth edition provides an unparalleled introduction to 2,000 years of Christian thought. A fully revised new

edition of the bestselling introductory textbook in Christian theology Features new sections on monastic schools of theology, the English Reformation, and Radical Orthodoxy Includes increased discussion of women in the early Church, feminist theology, Eastern Orthodox theology and history, and Catholic teachings on the Doctrine of the Church Incorporates user-friendly key terms sections, and study questions Supported by a website at www.blackwellpublishing.com/mcgrath, containing additional lecturer resources.

Most historical theology texts follow Christian beliefs chronologically, discussing notable doctrinal developments for all areas of theology according to their historical appearance. And while this may be good history, it can make for confusing theology, with the classic theological loci scattered throughout various time periods, movements, and controversies. In *Historical Theology*, Gregg Allison offers students the opportunity to study the historical development of theology according to a topical-chronological arrangement, setting out the history of Christian doctrine one theological element at a time. Such an approach allows readers to concentrate on one tenet of Christianity and its formulation in the early church, through the Middle Ages, Reformation, and post-Reformation era, and into the modern period. The text includes a generous mix of primary

Download Ebook Introduction To Christian Theology

source material as well, citing the words of Cyprian, Augustine, Aquinas, Luther, Calvin, Barth, and others. Allison references the most accessible editions of these notable theologians' work so that readers can continue their study of historical theology through Christian history's most important contributors. Historical Theology is a superb resource for those familiar with Wayne Grudem's Systematic Theology or interested in understanding the development of Christian theology.

Daniel Migliore's Faith Seeking Understanding has been a standard introduction to Christian theology for more than a decade. The book's presentation of traditional doctrine in freshly contemporary ways, its concern to hear and critically engage new voices in theology, and its creative and accessible style have kept it one of the most stimulating, balanced, and readable guides to theology available. This second edition of Faith Seeking Understanding features improvements from cover to cover. Besides updating and expanding the entire text of the book, Migliore has added two completely new chapters. The first, "Confessing Jesus Christ in Context," explores the unique contributions to Christian theology made by recent theologians working in the African American, Asian American, Latin American, Hispanic, feminist, womanist, and mujerista traditions. The second new chapter, "The

Download Ebook Introduction To Christian Theology

Finality of Jesus Christ and Religious Pluralism," addresses the growing interest in the relationship of Christianity to other religions and their adherents. Migliore's three delightful theological dialogues are followed by a new appendix, an extensive glossary of theological terms, making the book even more useful to students seeking to understand the history, themes, and challenges of Christian belief.

Avoiding any form of denominational or theological bias, this essential textbook provides full coverage of the first 2,000 years of Christian theological debate, including substantial information on historical, philosophical, and systemic theology. Includes an extensive glossary of terms and an updated guide to theological resources on the Internet.
