Although Metro 2033 is a story about Artyom's journey through the metro, it is equally also about Artyom's growth as a person. The video game reflects this, and, unlike the novel, also gives the player an opportunity to influence this.

The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

Dall'esperienza venticinquennale degli Autori nasce l'idea di un libro che possa essere d'ausilio a tutti coloro che vogliono approfondire la conoscenza del mondo obbligazionario. Dopo aver parlato brevemente della nascita della moderna finanza e delle prime emissioni di

obbligazioni, l'opera passa ad analizzarne le diverse tipologie che si trovano sui mercati, con una particolare attenzione per quelle attualmente più diffuse. Nella sezione dedicata all'approfondimento dei tassi di interesse viene affrontato, oltre ai diversi metodi di costruzione e di analisi delle curve dei rendimenti, il tema del calcolo della redditività di un bond e della valutazione del sottostante rischio di tasso di interesse. Argomento della parte successiva è l'analisi del rischio di credito, dalle diverse metodologie alla base della sua formulazione alle Agenzie di rating incaricate di determinarlo, nonché all'esame del recovery rate. Sono stati poi sottoposti a disamina gli strumenti derivati più utilizzati per gestire tale rischio e le variabili che maggiormente influenzano il credit spread, passando in rassegna i principali studi teorici al riguardo. Nell'ultimo capitolo, infine, si è invece ripercorsa la storia finanziaria degli 25 anni, riletta secondo il punto di vista degli Autori, che ci raccontano anche di come abbiano affrontato le tante crisi e le tante fasi di crescita dei mercati che in questo lasso di tempo si sono succedute e delle differenti strategie che, di volta in volta, hanno posto in essere per fronteggiare la delicatezza o l'euforia del momento.
