the mind of a writer that I've ever read. Parul Sehgal, The New York Times For the last twenty years, George Saunders has been teaching a class on the Russian short story to his MFA students at Syracuse University. In *A Swim in a Pond in the Rain*, he shares a version of that class with us, offering some of what he and his students have discovered together over the years. Paired with iconic short stories by Chekhov, Turgenev, Tolstoy, and Gogol, the seven essays in this book are intended for anyone interested in how fiction works and why it's more relevant than ever in these turbulent times. In his introduction, Saunders writes, "We're going to enter seven fastidiously constructed scale models of the world, made for a specific purpose that our time maybe doesn't fully endorse but

that these writers accepted implicitly as the aim of art—namely, to ask the big questions, questions like, How are we supposed to be living down here? What were we put here to accomplish? What should we value? What is truth, anyway, and how might we recognize it? He approaches the stories technically yet accessibly, and through them explains how narrative functions; why we stay immersed in a story and why we resist it; and the bedrock virtues a writer must foster. The process of writing, Saunders reminds us, is a technical craft, but also a way of training oneself to see the world with new openness and curiosity. *A Swim in a Pond in the Rain* is a deep exploration not just of how great writing works but of how the mind itself works while reading, and of how the reading and writing of stories make

words and expressions, over time creating a vast reservoir of playful turns of phrase, dazzling flashes of description, and snippets of delightful sound, all just for his love of language. But for Conroy reading is not simply a pleasure to be enjoyed in off-hours or a source of inspiration for his own writing. It would hardly be an exaggeration to claim that reading has saved his life, and if not his life then surely his sanity. In *My Reading Life*, Conroy revisits a life of reading through an array of wonderful and often surprising anecdotes: sharing the pleasures of the local library's vast cache with his mother when he was a boy, recounting his decades-long relationship with the English teacher who pointed him onto the path of letters, and describing a profoundly influential period he spent in Paris, as
