Trial Practice: Exercises in Witness Examination and the Rules of Evidence is a remarkable set of exercises designed for Trial Advocacy courses. This new edition adds coverage of electronic evidence and confrontation clause issues. With special attention paid to the Rules of Evidence, these classroom simulations aim to cultivate students' skills at witness examination and arguing evidence objections and motions. The text, written in workbook format, contains 35 civil and criminal trial simulations that allow students and professors to see marked improvement in trial skills throughout the course. The hands-on format thoroughly engages students in the subject matter while teaching them practical skills required in legal practice. The comprehensive Teacher's Manual provides everything necessary to make the class teachable, requiring minimal preparation time from the instructor.

Trial Practice: Exercises in Witness Examination and the Rules of Evidence is a remarkable new text designed for Trial Advocacy courses. With special attention paid to the Rules of Evidence, these classroom simulations aim to cultivate students' skills at witness examination. Concisely written, the author has carefully stripped out non-essential material from the traditional approach to the course, directing attention instead at core trial skills. The text, written in workbook format, contains 35 simulations that allow students and professors to see marked improvement in trial skills throughout the course, and the hands-on format thoroughly engages students in the subject matter while teaching them practical skills required in legal practice. The comprehensive Teacher's Manual provides everything necessary to make the class teachable, requiring minimal preparation time from the instructor.

Defendant Reginald McKay, a mentally disturbed American who became a "home-grown" Islamic terrorist, poisoned members of a Jewish temple during Passover seder. After one of the poisoned congregants died, the Feds got a lucky break thanks to an eyewitness and modern computer forensics and quickly built a death penalty case against McKay. Newton's case file, United States v. McKay, is built around the tragic story of McKay and his victims and includes twenty advocacy exercises from all major stages of a criminal case. Each of

these twenty exercises will introduce a wrinkle-involving a constitutional challenge to procedures or evidence-that students then analyze through the lens of the Supreme Court's decisions in landmark criminal procedure cases such as *Batson v. Kentucky*, *Jackson v. Virginia*, and *United States v. Cronin*, among others. Taken as a whole, these exercises track the maneuverings of a complex criminal defense and prosecution, starting with pretrial motions; continuing through jury selection, trial, and sentencing; and concluding with postconviction motions. An instructor using *Trial Advocacy in Action* may, as desired, direct students either to prepare short written pleadings or to practice oral advocacy in support of their legal arguments. This fusion of factually compelling scenarios and intellectually challenging legal doctrines creates a robust learning experience that seeks to hone students' skills regarding both legal analysis and legal advocacy concerning constitutional issues that arise throughout the entire course of a criminal case. *Trial Advocacy in Action* is ideal for use in upper-level criminal procedure classes, law school mock trial competitions, and continuing legal education (CLE) seminars for new criminal practitioners.

*Problems in Trial Advocacy: 2019 Edition* is the premier volume for realistic courtroom simulations. Many of the problems are based on real trials, both civil and criminal. A series of vignettes lead the reader through opening statements, direct and cross-examination of lay and expert witnesses, exhibit introduction, witness impeachment, and closing arguments. The 2019 volume introduces a variety of electronic exhibits, providing practice for the changing courtroom experience. These hands-on exercises let students practice their courtroom skills without memorizing a full case file of facts. The advocacy standard, updated with modern challenges to advocacy skills.

*Trial Advocacy: Planning, Analysis, and Strategy* conveys a clear understanding of the trial process, how lawyers think, and the strategies and techniques of trial persuasion. trial.

Written by an author team with an extraordinary depth of experience in trial practice, Materials in Trial Advocacy uses actual cases and Trial Files to engage students in the whole process of litigation. Each chapter contains both civil and criminal problems presented at graduating levels of complexity. Key Features All photos and almost all other graphics have been replaced, to give the materials a modern look. Most formerly gender-specific names of witnesses replaced with gender-neutral names, so instructors can assign persons of either gender to most witness roles. A new problem concerning police seizure of a cell phone during arrest. A new problem concerning the admissibility of a social media post, in several contexts.
