A provocative social history examines the history of virginity and of noted virgins in Western culture, describing the unique fascination civilization has had for virginity from a social, political, economic, philosophical, medical, and legal standpoint. Reprint.

Hanne Blank's revolutionary, rich, and entertaining survey of an astonishing untouched history reveals why humans have been fixated on an indefinable state of being since the dawn of time. As the butt of innumerable jokes, center of spiritual mysteries, locus of teenage angst, popular genre for pornography, and nucleus around which the world's most powerful government has created an unprecedented abstinence policy, Virgin also shows how utterly important to contemporary times the topic is.

It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

This empowering exercise guide is big on attitude, giving plus-size women the motivation and information they need to move their bodies and improve their health. Hanne Blank—a fellow plus-size girl who's been there and has the worn-out sports bras to show for it—will help you discover activity that works for you no matter what your size or current fitness level. Whether you choose to do yoga, pump iron, walk your dog, play Wii Fit, hire a personal trainer, or just run errands by bicycle, Hanne will provide specifically tailored advice on: • Finding movement that feels great, physically and emotionally • Choosing a gym • Facing the trail, pool, park, or locker room • Overcoming fear and shame • Sourcing plus-size workout gear • Getting the nutrition you need and avoiding common injuries • Fighting fat prejudice and uninvited comments Featuring incendiary acts like "Flail proudly," and "Claim the right to be unattractive (just like anybody else)," Hanne serves up years of hard-won fitness advice with humor and self-acceptance. With motivating lists like "30 Things to Love About Exercise (None of Which Have Anything to Do with Your Weight, Your Size, or What You Look Like)," this call to action will get you up and moving in no time!

*Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. Public enemy. Crucial macronutrient. Health risk. Punchline. Moneymaker. Epidemic. Sexual fetish. Moral failing. Necessary bodily organ. Conveyor of flavor. Freak-show spectacle. Never mind the stereotype, fat is never sedentary: its definitions, identities, and meanings are manifold and in constant motion. Demonized in medicine and public policy, adored by chefs and nutritional faddists (and let's face it, most of us who eat), simultaneously desired and abhorred when it comes to sex, and continually courted by a multi-billion-dollar fitness and weight-loss industry, for so many people "fat" is ironically nothing more than an insult or a state of despair. In Hanne Blank's *Fat* we find fat as state, as possession, as metaphor, as symptom, as object of desire, intellectual and carnal. Here, "feeling fat" and literal fat merge, blurring the boundaries and infusing one another with richer, fattier meanings. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Virginity is of concern here, that is its utter messiness. At once valuable and detrimental, normative and deviant, undesirable and enviable. Virginity and its loss hold tremendous cultural significance. For many, female virginity is still a universally accepted condition, something that is somehow bound to the hymen, whereas male virginity is almost as elusive as the G-spot: we know it's there, it's just we have a harder time finding it. Of course boys are virgins, queers are virgins, some people reclaim their virginities, and others reject virginity from the get go. So what if we agree to forget the hymen all together? Might we start to see the instability of terms like untouched, pure, or innocent? Might we question the act of sex, the very notion of relational sexuality? After all, for many people it is the sexual acts they don't do, or don't want to do, that carry the most abundant emotional clout. *Virgin Envy* is a collection of essays that look past the vestal virgins and beyond Joan of Arc. From medieval to present-day literature, the output of HBO, Bollywood, and the films of Abdellah Taïa or Derek Jarman to the virginity testing of politically active women in Tahrir Square, the writers here explore the concept of virginity in today's world to show that ultimately virginity is a site around which our most basic beliefs about sexuality are confronted, and from which we can come to understand some of our most basic anxieties, paranoias, fears, and desires.

At last, a book that covers the how-tos and why-tos of sexuality from the point of view of big folks and those who love them! "Big Big Love" is a no-holds-barred, yet lighthearted, overview of sex for everybody from the chubby to the supersized. Detailed and realistic information on improving self-image, partner-finding, sexual positions and activities, resources for toys and clothing and much more. "Big Big Love" is essential reading for women, men and transfolk... gays, bisexuals and heterosexuals... and anyone else who's ever been told that sex is only for the slender!

Investigating the Christmas-season murders of four people in the luxurious home of one of Oslo's wealthiest families, Norwegian Police Chief Inspector Hanne Wilhelmsen risks everything to identify a mysterious victim and his reason for being among the others.

The United States is obsessed with virginity - from the media to schools to government agencies. This panic is ensuring that young women's ability to be moral agents is absolutely dependent on their sexuality. Jessica Valenti, executive editor of Feministing.com and author of Full Frontal Feminism and Yes Means Yes, addresses this poignant issue in her latest book, The Purity Myth. Valenti argues that the country's intense focus on chastity is extremely damaging to young women. Through in depth analysis of cultural stereotypes and media messages, Valenti reveals that powerful messages - ranging from abstinence curriculum to "Girls Gone Wild" commercials - place a young woman's worth entirely on her sexuality. Morals are therefore linked purely to sexual behavior, as opposed to values like honesty, kindness, and altruism. Valenti approaches the topic head-on, shedding light on chastity in a historical context, abstinence-only education, pornography, and public punishments for those who dare to have sex, among other critical issues. She also offers solutions that pave the way for a future without a damaging emphasis on virginity, including a call to rethink male sexuality and reframing the idea of "losing it." With Valenti's usual balance of intelligence and wit, The Purity Myth presents a powerful and revolutionary argument that girls and women, even in this day and age, are overly valued for their sexuality, and that this needs to stop.

A critical and in-depth investigation of how virginity is represented in film.
