Crime, Regulation and Control during the Blitz looks at the social effect of bombing on urban centres like Liverpool, Coventry and London, critically examining how the wartime authorities struggled to regulate and control crime and offending during the Blitz. Focusing predominantly on Liverpool, it investigates how the authorities and citizens anticipated the aerial war, and how the State and local authorities proposed to contain and protect a population made unruly, potentially deviant and drawn into a new landscape of criminal regulation. Drawing on a range of contemporary sources, the book throws into relief today's experiences of war and terror, the response in crime and deviancy, and the experience and practices of preparedness in anticipation of terrible threats. The authors reveal how everyday activities became criminalised through wartime regulations and explore how other forms of crime such as looting, theft and drunkenness took on a new and frightening aspect. *Crime, Regulation and Control during the Blitz* offers a critical contribution to how we understand crime, security, and regulation in both the past and the present.

September 1940 marked the beginning of Nazi Germany's sustained attack on civilian Britain. Lasting eight months long, the Blitz was the form of warfare that had been predicted throughout the 1930s, that everyone had expected since Neville Chamberlain's declaration that Britain was at war with Germany. The ferocity of the Luftwaffe attacks, combined with images of the City of London burning are widely considered to be iconic snapshots of Second World War history. Though compared with other great moments of that war -- D-Day, Dunkirk, V E Day -- the Blitz remains curiously unexamined. Apart from fragmentary accounts and local records, there is little in the way of a comprehensive account of the Blitz experience that so many British civilians went through -- as well as the social, political and cultural implications of the bombardment. Designed to break the morale of the British population, the nightly bombings certainly did devastate. But, as Juliet Gardiner shows in this hugely important book, they also served to galvanise the nation; from those eight months of terrifying Nazi onslaught, a new determination amongst people and politicians steadily emerged. Revealing, original and beautifully written, THE BLITZ is a much-needed exploration of one of the most important moments in Second World War history.

This is a memoir a small child in wartime Britain and her adventures during the Blitz in Liverpool, England which was second to London in the number of German air raids and bombs dropped on the city. This was never publicized at the time. Liverpool was the only major British port still open which brought in food and supplies from our Allies.

The Blitz Companion offers a unique overview of a century of aerial warfare, its impact on cities and the people who lived in them. It tells the story of aerial warfare from the earliest bombing raids and in World War 1 through to the London Blitz and Allied bombings of Europe and Japan. These are compared with more recent American air campaigns over Cambodia and Vietnam in the 1960s and 1970s, the NATO bombings during the Balkan Wars of the 1990s, and subsequent bombings in the aftermath of 9/11. Beginning with the premonitions and predictions of air warfare and its terrible consequences, the book focuses on air raids precautions, evacuation and preparations for total war, and resilience, both of citizens and of cities. The legacies of air raids, from reconstruction to commemoration, are also discussed. While a key theme of the book is the futility of many air campaigns, care is taken to situate them in their historical context. The Blitz Companion also includes a guide to documentary and visual resources for students and general readers. Uniquely accessible, comparative and broad in scope this

book draws key conclusions about civilian experience in the twentieth century and what these might mean for military engagement and civil reconstruction processes once conflicts have been resolved.
