The all new Mastering Lean Product Development Implementation Workshop provides a step-by-step methodology for integrating the powerful waste-eliminating tools of lean product development into any product development process.

EXCELLENCE IN THE SOUTHWEST

“Lean product development” is also referred to as “lean product and process development” to highlight the innovation involved both in new products and in the manufacturing systems needed to produce them. We use the shorter phrase in order to avoid confusion between manufacturing process and development process.

Why Learning Is Central to Sustained Innovation

This book presents an analysis of the dynamics and the complexity of new product development projects which are organized according to the concept of concurrent engineering. The approach of the authors includes both a theoretical and an empirical treatment of the topic, based on the theory of design structure matrices.
